U. S. WARPLANES BLAST JAP INVASION; SNOW FALLING ON RUSSIA WAR FRONT

REPORTS INDICATE ROMMEL WILL OPEN DOUBLE OFFENSIVE

DRIVE INTO EGYPT AND SYRIA CLAIMED BY BERLIN

By ROGER D. GREENE
Associated Press War Editor.
Reports reaching Cairo late today said German Field Marshal Erwin Rommel, who recently returned to the North African front from Berlin, had been ordered to launch a twin offensive against Egypt and into Syria from the Axis-occupied Greek Islands of the Eastern Mediterranean.

These advices said Rommel had been placed in supreme command of axis land, sea and air forces in the Mediterranean area.

Rommel's reported instructions to take the offensive, breaking a lull of many weeks on the Egyptian front, coincided with greatly increased air fighting over the battlefield and followed reports that strong axis reinforcements have been moving across the Mediterranean to North Africa.

Axis dispatches said more than 400 planes fought in a big aerial battle over the desert earlier this week.

WHERE TROUBLE BREWS FOR AXIS—As result of increased violence, Germans were reported to be strengthening their garrison at Belgrade (1), former Yugoslav capital, and German broadcasts at Gorizia (2) in northwestern Italy, an Italian Alpine regiment was reported to have mutinied when ordered to the Russian front. Italy has been reported planning fortification of the Dalmatian zone (shaded area) along the Adriatic coast, over which Italy lost control after invasion of Yugoslavia. Patriots in Albania (3) were reported fighting Italians on three mountain fronts. Broken lines indicate pre-war boundaries.

CHANGE IN CHILEAN FOREIGN MINISTERS HAS BEEN ANNOUNCED

JOAQUIN FERNANDEZ, AMBASSADOR TO URUGUAY, ACCEPTS POST

SANTIAGO, Chile, Oct. 22.—(AP)—Shares indications of firm treatment for axis agents in neutral Chile emerged today as a new cabinet, following two last-minute changes of personnel, took the reins of government under President Juan Antonio Rios, himself an advocate of continental solidarity.

Protesting that he "had only one virtue" and that was that he never had played poker, Rickenbacker said in a game with Major General Carl Spaatz, chief of the United States Air Forces in the European theater, and Brigadier General A. S. Duncan, air force chief of staff, during his recent visit to the United States Army Air Forces.

On the first hand Rickenbacker laid down four queens with the query, "Is this enough?" and from then on it went from bad to worse for Spaatz and his staff.

Rickenbacker was then asked if Major General Ira C. Eaker's bomber command. By then, his game had improved.

Rickenbacker Gave Poker Lessons to U. S. Army Air Cadets

LONDON, Oct. 22.—(AP)—One of the most closely guarded "military secrets" of the war seemed out today—Capt. Eddie Rickenbacker's one-man commando raid on the poker-pride chiefs of the United States Army Air Forces.

Protesting that he "had only one virtue" and that was that he never had played poker, Rickenbacker said in a game with Major General Carl Spaatz, chief of the United States Air Forces in the European theater, and Brigadier General A. S. Duncan, air force chief of staff, during his recent visit to the United States Army Air Forces.

On the first hand Rickenbacker laid down four queens with the query, "Is this enough?" and from then on it went from bad to worse for Spaatz and his staff.

Rickenbacker was then asked if Major General Ira C. Eaker's bomber command. By then, his game had improved.

NEWSPAPERS ASSUME LEADERSHIP AGAINST LABOR CONSCRIPTION

By THOMAS F. HAWKINS

BERN, Switzerland, Oct. 22.—(AP)—Editors of newspapers printed and circulated secretly in unoccupied France were reported today to be assuming the leadership in a campaign to defy conscription of labor for Germany.

Their work, more than any other underground activity, appeared to have a chance of coordinating individual resistance against the conscription issue which the Vichy government of the Neuf Zuerich-Zell said, really involved "a decision for or against collaboration with Germany."

"This secret press has succeeded in realizing a unity of attitude among the people," declared the Berner Tagwacht in a dispatch from Lyon.

Sources here asserted it appeared clear that Germany was determined to take French workers by compulsion if Pierre Laval failed to come through an Gedmany demanded. He was said to have been given until Nov. 1 to announce the workings of a conscription plan, and until Nov. 30 for actual delivery of the workers to Germany. Foreign observers believed that he himself was not optimistic of success.

A question thus was posed individually for every Frenchman—the most direct personal problem to arise since Laval took power as the chief of government in Vichy six months ago. The Tagwacht predicted that "energetic reactions" could be expected.

The situation conceivably could become so critical as to compel the axis to undertake the occupation of the whole country, although conservative observers thought matters had not yet gone that far.

Accompanied by Juvenile Officer R. W. Bowling, Peggy La Rue Satterlee appeared at the district attorney's office yesterday and swore to a companion, charging that the British-born actor raped her twice aboard his yacht Sirio, on a moonlight cruise to Catalina Island, Aug. 3, 1941.

Flynn, who recently was divorced by actress Lili Damita, was arrested Friday on a charge he raped 17-year-old girl soda jerker at a party. Actor Errol Flynn, recently divorced, was summoned into court today to answer another complaint that he allegedly raped the daughter of a hotel chef aboard his palatial yacht when she was 15.

ON TOP OF ALL OTHER TAXES COMES VICTORY TAX FOR EVERYBODY

TAX OF FIVE PER CENT ON ALL INCOME. \$624 PER YEAR

WASHINGTON, Oct. 21.—(P)—Here are some questions and answers explaining the "Victory tax" in the new revenue bill:

Q. Who would have to pay it?
A. Every person with a net income of more than \$624 a year. The tax would be 5 per cent on all the "Victory tax net income" over that amount. Victory tax net income is defined as a person's gross income, excluding capital gains, and minus expenses and other allowable deductions connected with a trade or business.

Q. Would the tax be over and above my income tax?
A. Yes.

Q. Would some of the Victory tax be returned to me after the war?
A. Yes, a single person would be entitled to a post-war refund of 25 per cent of the tax, or \$150, whichever was the lesser. The head of a family would have a post-war credit of 40 per cent of the Victory tax, or \$1,000, whichever was the smaller, and for each dependent would get 2 per cent, but not more than \$100 refunded.

Q. Is there any way I could take immediate advantage of the refund, in order to hold down my tax burden?
A. Yes, the bill provides three such methods. You could reduce your immediate Victory tax liability for any given year by as much as the amount of your post-war refund by showing you had bought government bonds, reduced your debts, or held over your previous year's paid premiums upon outstanding life insurance policies. But your post-war credit would be reduced to the extent your immediate tax payments were thus lowered.

Q. How would the Victory tax be collected?
A. In most cases if you are working for wages or salary, it would be withheld from your paycheck. Exceptions include members of the armed services, domestics, agricultural laborers and casual workers. The latter groups, as well as other recipients of income, such as persons who do not hold jobs but who have income from investments, would pay the Victory tax along with their income tax. If they paid no tax, they would make a separate Victory tax return.

Q. Would an employer have to figure every employee's tax down to the penny? That would take a lot of bookkeeping.
A. Where the tax is withheld, the bill provides for wage band deductions. For instance, men draw-

STIFF INCREASES IN INCOME TAXES FOR INDIVIDUALS NEW TAX BILL SHOWN IN TABLES

WASHINGTON, Oct. 21.—(P)—The following tables show how stiff increases in the regular income tax and surtax rates and lower personal credits, plus a new 5 per cent levy on all income above \$624, will affect individuals under the bill approved by Congress today.

For purposes of the table, net income subject to the regular income tax is computed at 90 per cent of gross income on the assumption that taxes, contributions and other deductions average 10 per cent. The victory tax applies to all income above \$624 and is offset in part by the rebatable portion represented in the post-war credit column.

REV. J. I. CARTLIDGE NAMED MODERATOR BY BAPTIST MEETING

The Rev. J. I. Cartlidge, pastor of the First Baptist Church of Corsicana, was named moderator of the Corsicana Baptist Association at the final session of the two-day meeting Tuesday night. The 1943 Association will meet in October at the Memorial Baptist Church here.

Other officers named Tuesday night include: Rev. Derwood Geddie, Navarro Mills, vice-moderator; Rev. W. K. McGuire, Memorial Baptist Church, clerk and treasurer; Mrs. J. R. Howell, First Church, Corsicana, corresponding secretary; Mrs. W. M. Blivin, First Church, Sunday School superintendent; Rev. Jack Goff, North Side Associational organizer; Rev. J. J. Sloane, Calvary Baptist, training director; Rev. Joe Snell, Blooming Grove, evangelistic chairman; Rev. J. I. Cartlidge, Rev. H. O. Black, Dawson, and Rev. D. P. Cagle, Frost, district board members.

Rev. Cartlidge was chosen to bring the annual sermon at the 1943 meeting with Rev. H. E. Gary, of Roane an alternate.

Rev. Bob Williams gave the devotional for the Tuesday evening session and E. L. Brown of Corsicana gave the brotherhood report. Report on the hospitals was given by Rev. Sullivan of Powell and Lawrence Payne of Waco, showed pictures of the Hillcrest Memorial Hospital. Judge Wayne Howell gave an address on "Civil Righteousness" as the layman talk of the Association. Various reports were made and the closing message on "Christian Education" was given by the Rev. Holt, pastor of the Calvary Baptist Church of Waco.

Messengers from the 21 churches in the Corsicana Baptist Association meeting in its thirty-third session at the First Baptist church heard the Annual Associational sermon Tuesday morning by the Rev. Kirby McGuire, pastor of the Corsicana Memorial Baptist church.

Speakers for the Tuesday morning meeting included Rev. L. E. Gray from the Baptist Seminary who discussed "Our Ministry to Service Men;" Derwood Geddie of Waco who explained "The Hundred Thousand Club;" Rev. and Mrs. Wm. Blivin, and Rev. Jack Goff who gave reports. Rev. M. O. Check of Waco, District 1 missionary, was also scheduled to speak Tuesday.

Inspirational Sermon
Dr. W. W. Melton of Dallas State Secretary, addressed the association at its opening session Monday night. The dynamic speaker gave an inspirational and challenging missionary sermon, pleading with the churches to direct their work along missionary lines.

"The Bible is missionary, religion is missionary and the church should be missionary," Dr. Melton emphasized, "and any church that leaves missions out will die, since it is the spirit of evangelism and missions that keeps the church alive." The speaker urged his listeners to regain their missionary enthusiasm because the primary purpose of the church is to win men to God.

Cannot Neglect Soldiers

Explaining the State Missionary program Dr. Melton spoke of the work being done in Texas Army Camps and told his audience that the church cannot neglect its soldiers. Baptists have established recreational centers in cities throughout the state near large army camps and are doing their utmost to reach the boys through chaplains and lay workers. He spoke also of the work being done among civilians in war congested areas of the Baptist Student program and of work being done among the Mexicans, Negroes and underprivileged whites. The secretary outlined the state budget and funds needed.

Concluding his message Dr. Melton called upon Baptists to awaken to their responsibilities and face the world with a new vision of missions and missionary work. "After the war," he said, "there will be the greatest opportunity for missionary work ever seen or hoped for. The Gospel will have a welcome like it has never had before and we must be ready."

Rev. Harrison Presided

Rev. A. E. Harrison of Kennesaw, moderator, presided at the opening session during which time announcements were made, committees appointed and guests recognized. The Rev. R. J. Fletcher gave the devotional. A petitionary letter from the Farmer Church was read and the church accepted for membership in the Corsicana Association.

Other speakers on the Monday night program included Rev. Wheeler, representative of the Baptist Standard, and Dr. Perry Evans, representative of Buckner's Store.

FIT AND FREE FOLK FORCE THAT WILL CHANGE WORLD*

Place of Personality in the Post-war Era—The Preparedness of Individuals, in and Out of Service, Vital to Success—A Reasonable Statement of Alcohol's Part

BY WILLIAM T. ELLIS.

All right-thinking persons want a better world to follow this war. That is the theme of an ever-increasing number of speeches and articles and books. It is being discussed over the radio, and in quiet talks between individuals. Only so great a result can justify the great cost of this awful war.

A familiar type of "intellectual," who loves a theory more than a fact, is bent upon making a complete blue-print for the organization and operation of the whole earth, to be imposed in its completeness at the peace table. That creates a new danger.

Vast changes, on a large scale, are to be expected and provided for. But the actual results are to come by the way of individual personalities transformed into a new manner of life. "The whole is but equal to the sum of its parts."

A better world without better men is impossible.

The character of its people sleeves the nature of the Nation. Only good Americans make a good America; only good Canadians can make a good Canada; only good men and women can make a good world. That is the A. B. C. lesson of statescraft.

Personality Emerges
Despite all the regimentation and standardization that war forces upon peoples, the simple, clear fact shines forth that it is the individual who determines the whole. Every strong personality, all out for the success of the cause, is a great contribution to the common objective. Every hesitant, timid, selfish and money-seeking man or woman is a weak spot in our national defenses. This obvious truth cannot be overstated. The common phrase, "It's up to me," meaning the individual, is the truth for the times.

Each of all fighting forces, and all production agencies, lies at the inexorable demand for patriots who, one by one, are living at their best and working at their best. The lesson is one of the permanent truths of the race, older than the pyramids. Individual heroism, which glows so brightly in the war news, are but instances of the supreme worth of personality.

Fit For the Best
This fundamental truth carries over into all the details of life. It is the foundation of the present lesson upon "Steps Toward the Solution of The Alcohol Problem." It also covers home life and social relations, and business life and political attitudes and activity. Men and women and young persons fit for the best are the first factor in all our national and world problems.

In our modern, mass-mindedness, we have overlooked the preciousness of the individual. God's greatest gift to the race is human lives, each endowed with peculiar qualities; no one entirely like another. With every babe that is born there comes into being a new opportunity for the race. Those who express the highest capabilities—and how few there are—will outlast the rest of the world, who keep it from decay. Phillip Brooks once said, "All the world is better for every one who is living at his best."

In the new area following the war, of which we dream, it will be the strong, disciplined, truth-seeking persons who will be our leaders and our saviors. To those who have the imagination to hear, there is now going up from all the globe a great cry "God send us men and women fit for this new hour."

John Barleycorn Traitor
Some of us believe that the discipline of army life is preparing men for this thrilling post-war emergency.

All the familiar arguments against strong drink are only threshed straw. There must be a new approach to the alcohol problem that will appeal to alert and rational minds. In full tolerance, and free from all fanaticism, friends of a better order of life should be insistently pointing out the undoubted attraction of alcohol to the type of personality that must prevail in the day that is dawning. Clear up to the hill it has been demonstrated that booze

Orphan's Home. An offering was taken for the home after Dr. Evans's talk. Mrs. G. E. Moore of Frost gave the Home report.

Other reports given were: Foreign missions, Rev. J. I. Cartlidge; home missions, Rev. H. O. Black; state missions, Rev. Joe Evans, representative of Buckner's Store.

WE HAVE GOT TO WIN THIS WAR

To do this we can all help by raising more produce and food stuff to feed our own boys.

We will pay you in cash the very highest market price for your Eggs, Butter, Hens, Fryers, Cox, Turkeys, Sour Cream and Shelled Corn.

DAILY PRODUCTION OF PETROLEUM FOR NOVEMBER IS SET

WASHINGTON, Oct. 22. (AP)—The office of petroleum co-ordinator has certified to petroleum-producing states a daily production rate of 4,031,400 barrels for November. The recommended daily rate for October was 4,062,200 barrels.

Among recommended daily production rates (in barrels) for November, 1942, against the same month in 1941, were:

Petroleum, 50,500 for November, 1942 and 50,800 for November, 1941; Illinois, 280,000 and 280,000; Indiana, 18,000 and 19,000; Kansas, 300,700 and 294,000; Kentucky, 13,600 and 13,800; Michigan, 64,500 and 65,700; Nebraska, 3,400 and 3,500; Ohio, 10,400 and 11,400; Oklahoma, 407,500 and 417,000; Arkansas, 77,200 and 79,500; Louisiana, 333,800 and 337,200; New Mexico, 100,600 and 101,100; Texas, 7,000 and 7,000; Montana, 24,800 and 24,400; Wyoming, 94,400 and 90,800; California, 782,000 and 782,000.

A New Standard
For the destruction of the effects of alcohol we may not depend upon legislation. Up that alley lurks the bootlegger. The one sure step toward the reform that lies ahead is total abstinence on the part of the socially awakened individual. We can dry up the liquor business by doing without liquor; no amount of expensive advertising can counteract the resolute purpose of the person who has decided that, for the sake of fullest fitness and patriotic efficiency, he will let drink alone.

This implies the putting of a great new idea into the dominant place in the thinking of young people. It assumes a purpose to shape life to the highest ends, for the sake of the better world to which we are destined. It means, in the large, a new generation of alcoholists, who will regard the common welfare as a nobler goal of life than personal satisfactions. There has yet to sweep the United Nations such a passion for the Christian idealism as will make this better order of society possible.

Indeed, we confront the truth that a non-boozing world will have to be a Christian world. At present, we are only hovering about the outskirts of the profound truth that nothing less than the power of Christ can make over mankind into the pattern of the new order of which we dream. When the great mass of us learn the lesson that clear, victorious, efficient life consists in pleasing Christ, and not ourselves, and all the majesty of God is brought to bear upon the issue, then we shall have a world of free and fit personalities, each serving all to the limit, at present unimagined, of his individual capacities.

SEVEN SENTENCE SERMONS
I have never refused anything to God.

—Florence Nightingale.

So much they talked, so very little said.

—Rev. Charles Churchill.

And of all the plagues with which mankind are cursed,

Ecclesiastic tyranny's the worst.

—Daniel Defoe.

Christ was the only Person in the whole range of history who can be said to have known how few there are in the salt of the earth, who keep it from decay.

—Philip Brooks.

—Reginald J. Campbell.

Let justice roll down as waters, and righteousness as mighty streams.

—Amos 5: 24.

Oh, what a tangled web we weave.

When first we practice to deceive,

—Aesop.

There is nothing more evident than that which cannot be seen by the eyes and nothing more palpable than that which cannot be perceived by the senses.

—Confucius.

The Sunday School Lesson for October 25 is, "Steps

Toward the Solution of the

Alcohol Problem" — Ecclesi-

astes 10: 17; Amos 5: 21-21;

Romans 14: 9-21; II Corin-

thians 6: 17; I Peter 4: 10.

We Are In The Market For

All the good F.12 Farmalls that we can buy worth the money.

Will pay you the cash for them if priced right.

Also will buy your young mules from one year old up. Will buy some good Johnson grass hay, must be well cured and fine grade.

We still have a few things to sell, such as some good Regular Farmalls on rubber, one Allis Chalmers, one F.30 Farmall and a few new Farmall H, with tools.

We are striving hard to keep you supplied with parts. However, on account of the Dallas branch having to move back to their former location to give room for war supplies we have been handicapped about getting parts for the past two weeks.

If your tractor or Magneto needs overhauling we will be glad to do your work. Our mechanic is experienced and will give you a job that will please.

LARGE CONTINGENT OF NEGROES SENT TO INDUCTION CENTER

A large contingent of negroes were sent to the induction center at Camp Wolters, Mineral Wells, from the Navarro county draft board No. 2 this week. Those going included:

Warren Louis Hawkins, Thurman Dixon, Roscoe Simmons Burns, Warren G. Cavit, Bonnel T. Metcalfe, Louis Taylor, Robert T. Steward, Bishop James E. D. H. Taylor, Tim Jessie, Theo Thiriel Parker, Hugo Steward, Milton Jones, O. C. Washington, John Henry Jones, Roscoe Haskell Roberts, T. J. Taylor.

Delma Mosley, Howard Banks Gee, Deroy Tifford, Frank Whitley, Forrest Lee Johnson, Mozetta Ross Beechum, Curtis Henderson Sylvester Lewis, Eholos, Oscar Whitfield, John Franklin Scott, George Nelson, Robert Givens, Charles White, James DeWitt Melick, Johnny Jackson, Braden Cliv, Willie D. Younger, Cleo Smith.

Oscar Anderson, Roland Overton, Willie Louis Kelley, Warren Hardin, Jerry Miller, John William Horriss, Clinton Leonard Ross.

A number of white men are scheduled to be sent from Board 2 to Dallas Friday for final physical examination.

Attended Hillsboro Meeting.

Miss Loretta Gaillard, city technician, attended a meeting of the Hillsboro, Texas, Waterworks and Sewerage Association at the Municipal Building.

Addresses were given by S. L. Robertson, mayor of Hillsboro, George Rohan of Waco and J. L. Willke of San Antonio.

Sun Went Ada Bring Results

ANOTHER MERCHANT VESSEL IS REPORTED LOST IN ATLANTIC

By The Associated Press
The torpedoing of a medium-sized U. S. merchant vessel in the North Atlantic last month by a U-boat with the probable loss of three crew members was announced today by Pearl Harbor.

Survivors landed at an east coast port from the latest vessel sunk said that the attacking sub was not seen by any of the crew as she fired two torpedoes into the starboard side of the vessel. The survivors were picked up shortly after they abandoned ship.

Men might in some cases "doubt" in homes to conserve heating oil.

He made the suggestion at a news conference labeling it himself as a "trial balloon." He reversed usual procedure by asking newspapermen what success they thought might be obtained by a campaign to induce doubling up.

The reporters made no comment.

Edgar A. Guest

The Poet of the People

THE FIGHTING FORCE.
Somewhere on the Pacific is a sailor with the fleet
Who used to play with marbles
right along this very street.

Somewhere on the Pacific is a
little chap I knew
Who is now the turret gunner of
a flying fortress crew.

Somewhere on the Pacific—that is
all they let him say—
Is he who cuddled for me when
at golf I went to play

The word came in this morning
that a youngster I have known
Now is stationed at New Zealand
as a soldier fully grown.

These are boys of our acquaintance
where the gunfire flares
These are sons of friends and
neighbors, theirs are all familiar names.

Oh, the war draws close and closer,
and there's no spot now
so far away
But the boys who played about us, all, at battle stations are!

WHAT IT MEANS:
DRAFTING MEN
FOR INDUSTRY

By HERMAN ALLEN

The word in Washington is this: After the tax bill is out of the way for an overall compulsory manpower bill—a bill aimed at compelling every civilian in a non-essential job to get into a war job, or to stay in the one he has.

It's almost certainly coming. President Roosevelt hinted at it in his Columbus Day speech when he said "It may be that all of our volunteer effort...will not suffice to solve the (manpower) problem. In that case we shall have to adopt new legislation."

Manpower Commissioner McNutt and other officials have lined up the problem. McNutt, testifying before the Tolson Committee on industrial migration, declared "there is good reason to doubt" that local "anti-pirating" agreements, voluntary transfer of workers to war industry, etc., will continue to meet the issue.

Indications are there's a campaign under way to sell the idea of compulsory manpower legislation to the public before any bill is introduced in Congress.

Those who shudder at Nazi-sounding words like "national service legislation" may take comfort from the fact that England has had such laws since 1939, with nearly 700 inspectors checking to make sure that employers are making the best use of skilled workers—men and women.

The British have found little need to use their power, however, with the power in the background, it has been found that employers are voluntarily doing their duty to see the right man for the right job to release him for a more important job if he is qualified and to train replacement men for men lost to other industry and to the armed services.

Plans For Manpower Control

What form will manpower control take if it is enacted here? We already have two suggestions.

One is the virtual freezing of logging and non-ferrous (other than iron) mine workers in their jobs in the northwest. The other is the shutting down of gold mines so that the miners can go to work digging copper and other war-vital ore.

Right now the tool and die industry in the Detroit area and the aircraft industry on the Pacific coast are sore spots. One aircraft plant hired several thousand workers in 60 days, yet wound up with a net loss in employment.

Since the arrangement worked out in the logging and non-ferrous mining situation in the northwest is reported to have succeeded in being-up fashion, the same scheme may be applied to these two fields.

Certificates Required

The plan is simple. The Army, Navy, Maritime Commission and the Procurement Division of the Treasury agreed to instruct their own plants and those under contract to them not to hire anybody who had quit a logging or non-ferrous mining job unless the war effort or if it would cause hardship if they were not granted.

To help insure that gold miners went where they were needed, employers were asked not to hire them, either, except on recommendation of the USES.

These two developments and a voluntary local plan originating in Baltimore may form the pattern for legislation. Under the Baltimore plan, which has spread to about dozen other localities, industries agreed to avoid labor pains by using available local labor first, to consult the USES when necessary to import labor and to shift men to where they are most useful.

End To Discrimination

Besides freezing men in essential jobs and eliminating unnecessary jobs, national service legislation probably will call for a full stop to discrimination against women, older men, Negroes and other racial groups. It will call for more careful estimates of manpower demands. One Michigan industrialist at first estimated his new plant would require 10,000 workers. This eventually was reduced to 50,000. There is evidence that some employers are hoarding men just as they might hoard scarce materials, and the possibility of a continuing "shortage" of manpower is in the air.

National service legislation probably will call for better location of orders. Labor Department figures show male labor shortages in 35 industrial centers, expected shortages in 81 others.

Yet the Manpower Commission found that 28.1 per cent of the war contracts let over three months went to labor shortage areas, 68.8 per cent to expected shortage areas. Only 12 per cent went to areas where manpower was adequate!

Then, too, maybe it's the United Sweethearts of America that will win this war.

WALKING TO SCHOOL

The simple life of ancestral days is coming back, for children as well as grown-ups. There is going to be more walking to school. Joseph B. Eastman, Defense Transportation Director, says "The physically able child can walk two miles to and from school, where weather conditions permit." So no school busses for Peter and Evangeline today, any more than it did the children of the past. It will be good for them.

The parents of this generation did a good deal of walking to school. Their grandparents did a great deal more, and were none the worse for it. Walking will not kill Peter and Evangeline today, any more than it did the children of the past. It will be good for them.

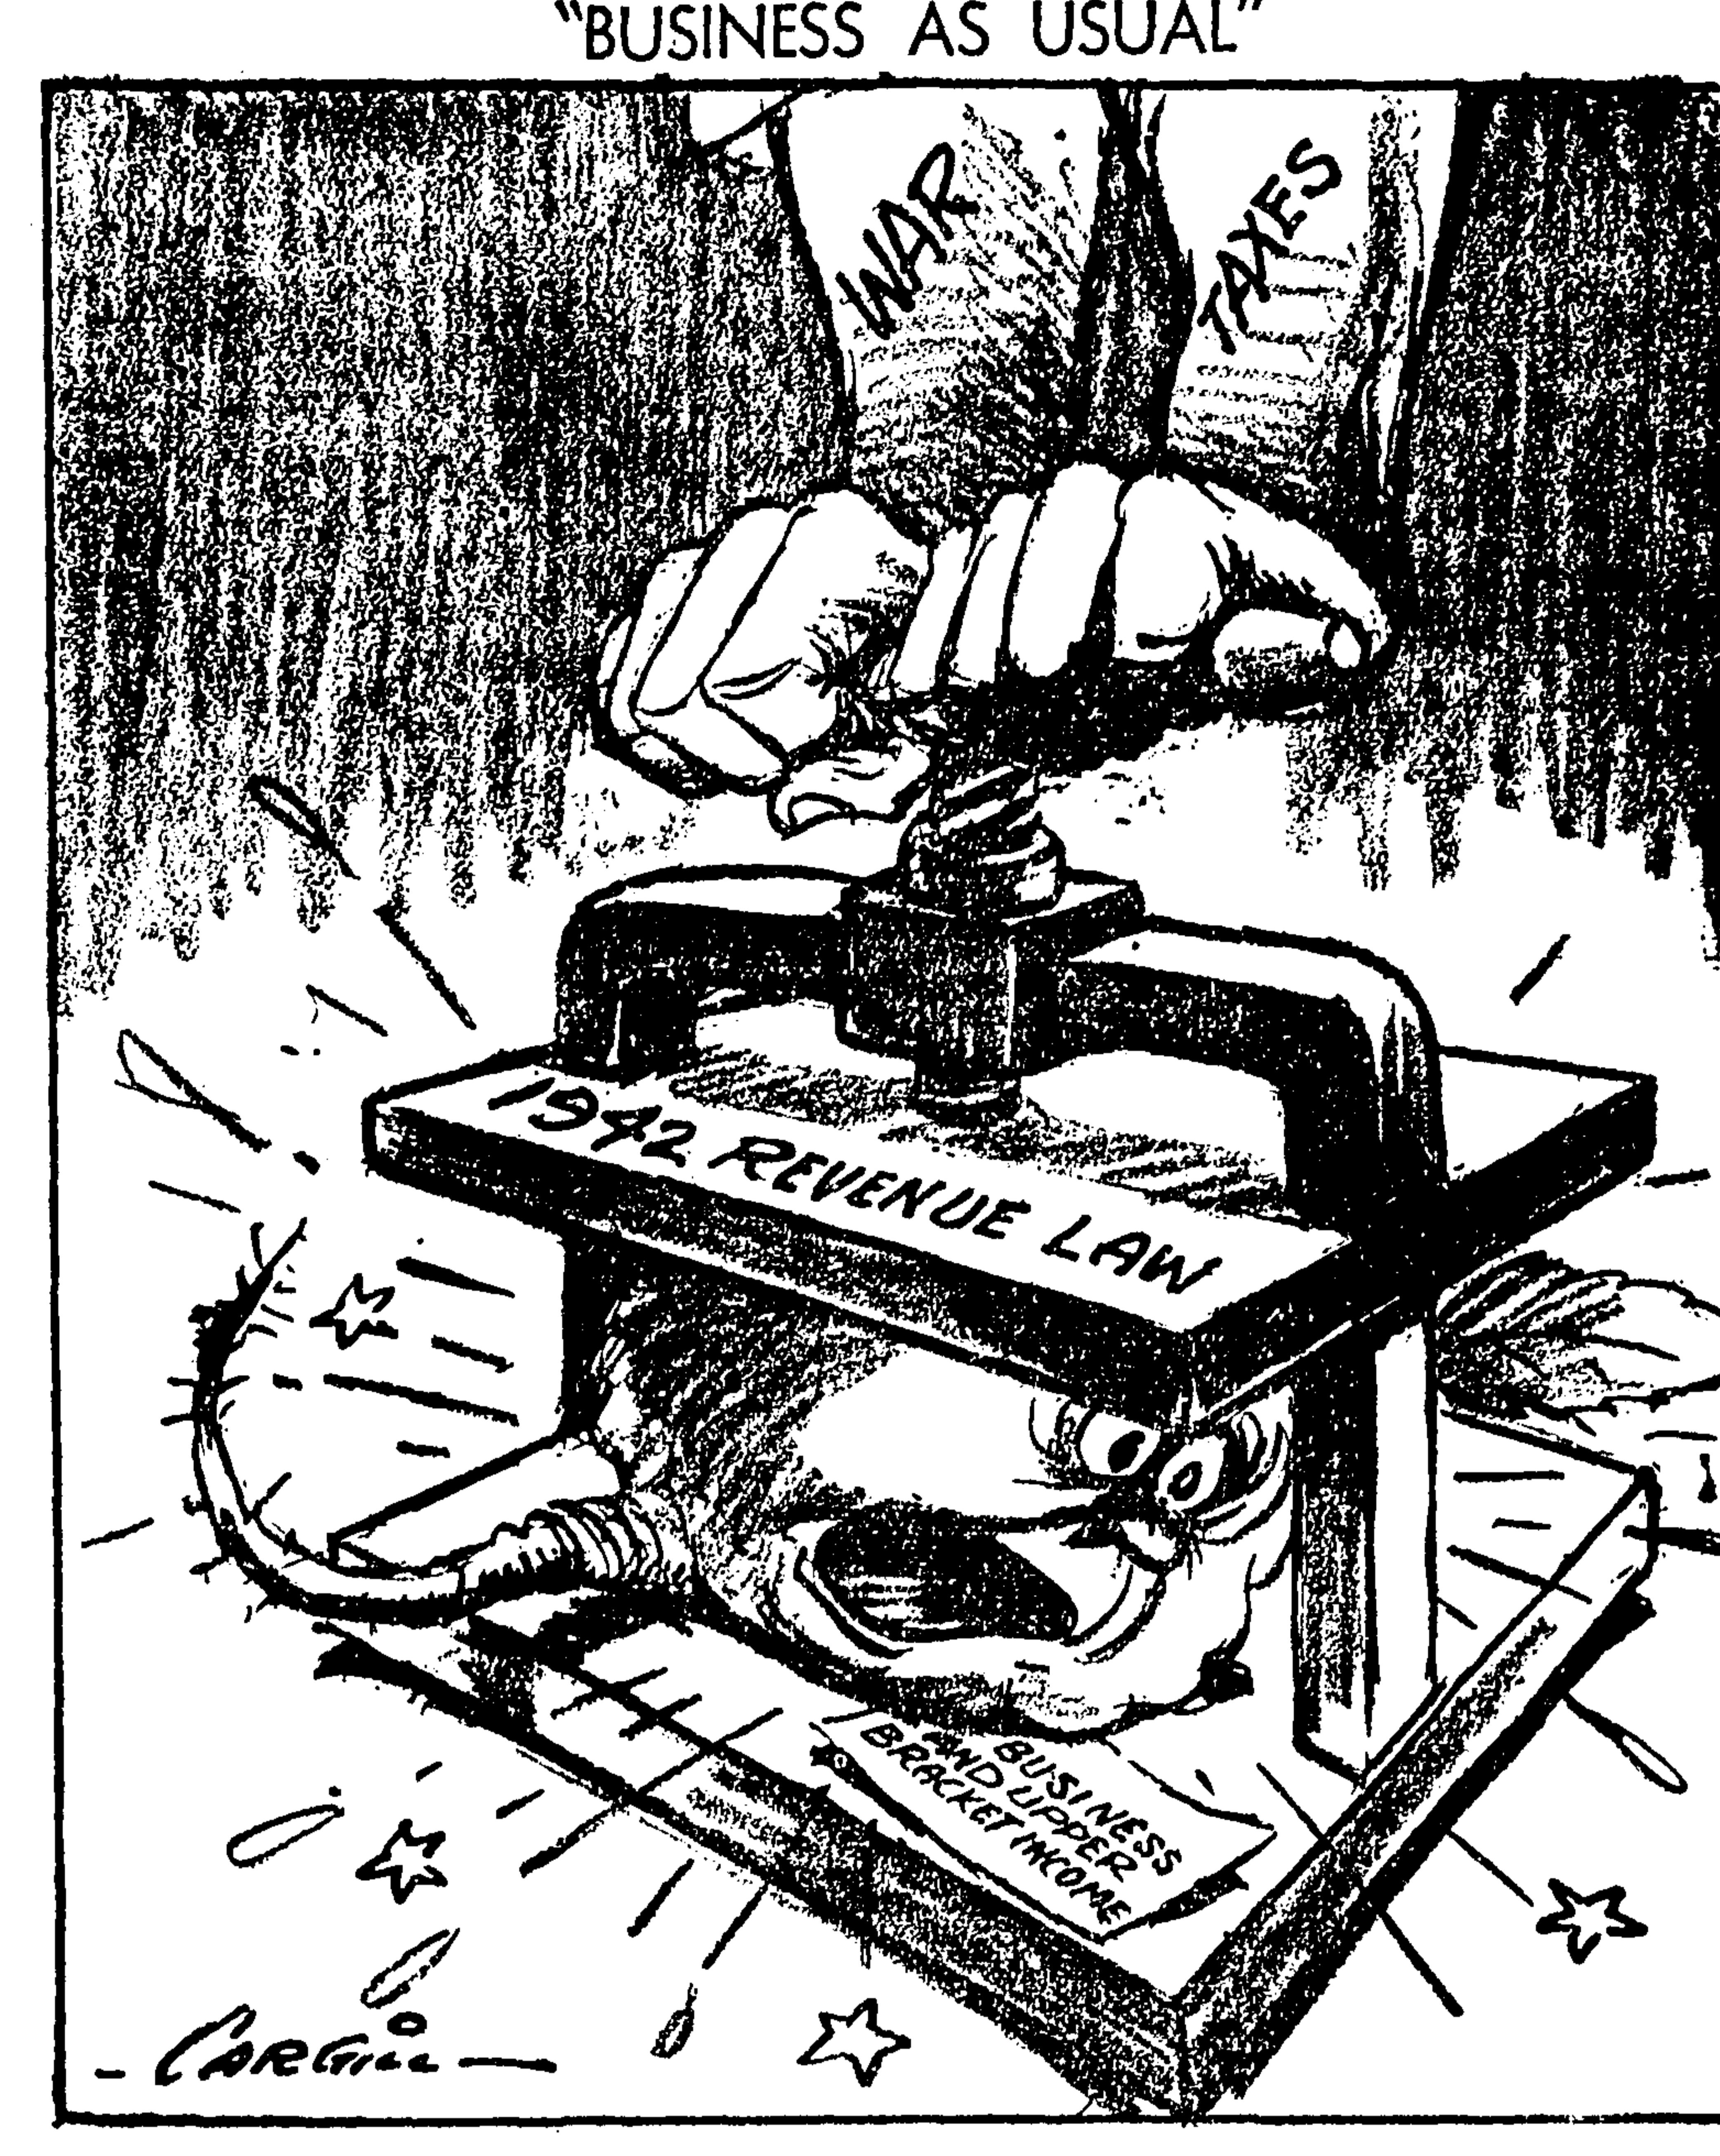

Then, too, maybe it's the United Sweethearts of America that will win this war.

There are too many "blocs" in this country; how about a bloc-out?

What a world! Nothing on the farm—

And another little bond

won't do any harm!

**FUNERAL SERVICES
WERE HELD MONDAY
FOR R. L. HARWELL**

Funeral services were held from the Church of Christ Monday afternoon for R. L. Harwell, 65, veteran employee of the Corsicana Cotton Mills, who died here Sunday.

Surviving are his wife, four sons, C. L. Harwell, Robert Harwell, J. D. Harwell and McCusin Harwell, all of Corsicana; two daughters, Mrs. Luella Vance, Orange Calif., and Mrs. Marjorie Mortisset, Corsicana; one brother, Henry Harwell, Mountain Peak, Texas; three sisters, Mrs. Ella Whitaker, Waxahachie; Mrs. Sally Harlan, Bonham, and Mrs. Dandy May, Alabama; eight grandchildren.

Funbearers were L. M. Warren, B. J. Accek, Cate Sharer, Ernest Jones, E. J. Black and Gordon Willes.

Sutherland-McCannion had charge of arrangements.

**Jean Barbara Nappe
Weds Charles Tuttle**

Mrs. Jean Barbara Nappe of this city, daughter of Mr. and Mrs. S. Nappe of Red Bank, New Jersey, and Charles Tuttle of Corsicana, son of Mr. and Mrs. J. N. Tuttle of Gladewater, were married Saturday in the Church of the Immaculate Conception by the Rev. V. Graffeo.

The bride, who was given in marriage by her mother, wore a traditional quill embroidery white satin. Miss Anne Tuttle, maid of the bridegroom, was maid of honor and Mr. Tuttle was attended by his brother, Frederick Tuttle.

A wedding breakfast was served to members of the wedding party at the Elgin Episcopal church of Elgin, with the Rev. John W. Schwer, rector, officiating. Simple mink marked the ceremony which was attended by members of the families and close friends. Mrs. Brown is a former Corsicana resident and is well known here.

Marie Ditto of Frost Joins WAACS

Three couples wed here.

Three marriage ceremonies were performed by Judge Hayden Paschal Saturday. The contracting parties included:

J. B. Cobb and Reba Vaughn, Corsicana.

H. L. Brown, Jr., and Alene Ruth Hunter, Victoria.

John William Harding and Will Lee Carey.

**Navarro County
Well Represented
Camp Claiborne**

CAMP CLAIBORNE, La., Oct. 21.—(Spl.)—Staff Sergeant William R. Wright, son of Mrs. Cleo Wright, route 1, Barry, Texas, has reported for duty with the 32nd Field Artillery, 103d Infantry Division at this station. Sergeant Wright has been a member of the United States Army since 1936. He will take up his duties as Motor Sergeant of the 32d Field Artillery, Corsicana; one brother, Henry Harwell, Mountain Peak, Texas; three sisters, Mrs. Ella Whitaker, Waxahachie; Mrs. Sally Harlan, Bonham, and Mrs. Dandy May, Alabama; eight grandchildren.

Surviving are his wife, four sons, C. L. Harwell, Robert Harwell, J. D. RITES FRIDAY FOR MRS RUTH WILLIAMS WHO DIED ARIZONA

Funeral services for Mrs. Ruth Williams, 37, formerly of Corsicana, who died last Sunday at Tucson, Arizona, will be held from the Corley Funeral Chapel Friday afternoon at 2 o'clock.

Rites will be conducted by the Rev. Robert F. Bristol, minister of the First Christian church.

Surviving are her husband, J. D. Williams, Tucson; Arizona; two daughters, Mrs. Frances Carrigan, Corsicana, and Mary Ruth Williams, Tucson, Ariz.; father, D. E. Kennemore, Corsicana; four brothers, Robert Kennemore, Camp Attersbury, Ind.; Albert Kennemore, Alabama; Jimmie and Jerry Kennemore, both of Corsicana; and three sisters, Mrs. Claudine Farmer, El Paso, and Misses Alle Mae and Doris Kennemore, both of Corsicana.

German Claim of Sinking U. S. Troop Ships is Denied

LONDON, Oct. 22.—(P)—German claims to have sunk several large United States troop transports were denied today by Lieut.-Gen. Dwight D. Eisenhower, commander of U. S. army forces in the European theater, to be "completely unfounded" and "merely another example of the untrustworthiness of axis reports."

Eisenhower said the denial of the reports, which appeared late in September, was delayed "until every possible method that was on the Atlantic at the time of the announcement was landed safely in the United Kingdom and we could assure ourselves of the complete falsity of the German claims."

Pork Prices Are Given Ceiling by Henderson Today

WASHINGTON, Oct. 22.—(P)—Price Administrator Leon Henderson today imposed a ceiling on all common cuts and types of pork at the packers' and wholesale level, thus eliminating the possibility of higher retail pork prices.

The new price lid covers more than 90 varieties of wholesale cuts and sets up differential prices in three base zones over the country. Henderson said the consuming public would benefit in two ways:

First, available pork supplies will be distributed more equitably in all parts of the country; and, second, severe pressure for higher retail prices will be relieved.

STUDENTS OF LOCAL SCHOOLS COLLECTED LARGE AMOUNT SCRAP

WASHINGTON, Oct. 22.—(P)—The final phase of their scrap metal campaign, students of the Corsicana public schools accounted for a total of 71,000 pounds, according to complete figures issued early Thursday afternoon by Fred D. Prince, county scrap chairman.

The students secured 85,000 pounds in their first drive.

Of significant interest is the fact that the majority of the 71,000 pounds was collected in one afternoon—Monday Oct. 5, at which time Corsicana schools were dismissed for an all-day effort.

The metal was moved to junk yards from the school grounds Wednesday afternoon by volunteer workers who furnished trucks for the hauling. Chairman Prince expressed unqualified appreciation to workers and business firms participating in the collection. Aiding also were members of the local company of the Texas Defense Guard and Boy Scout troops.

Railroads Moved 838,163 Barrels of Petroleum to East

WASHINGTON, Oct. 22.—(P)—Reversing a recent downward trend of petroleum daily into the Southeast East during the week ended October 19, or 176 more barrels daily than in the preceding week, Petroleum Coordinator Harold L. Ickes announced today.

"We're on the upgrade again," Ickes told a press conference, attributing the lift in the down trend of the last three weeks to the pooling of oil industry facilities and supplies and to greater movement of oil in solid train lots.

A record movement, attained in September, was 856,000 barrels daily, Ickes said.

WAR DEPARTMENT IS STUDYING PLANS TO RELEASE SOME MEN

WASHINGTON, Oct. 22.—(P)—The war department is studying plans to resupply men in the army with a view to releasing some who are physically unequal to war's demands to industry and agriculture, Secretary Stimson said today.

Some 4,000 former miners already have been furloughed to speed production of copper and other ores.

Stimson told his press conference the projected resupply would consider the factors of physical condition and the technical qualifications of the men now in service.

"If it is determined that some over 40, because of these two considerations are more valuable to industry and agriculture, these may be released, as replacements become available from younger men," he said.

Stimson told a questioner he assumed the survey would include men already overseas, although these might not be considered as soon as those stationed at home.

He said it was not definite that the age 40 would be the minimum considered.

As long ago as last January, Stimson said the army had begun shifting its personnel by transferring to service units men capable of standing the pace of fighting commands. In this process he said age was a factor but not the sole consideration.

Director of WAACs Going to London

LONDON, Oct. 22.—(P)—Mrs. Oveta Culp Hobby, Director of the WAACs, is coming to Britain shortly to see Britain's women at war work, it was learned authoritatively today.

Miss Hobby's visit, returning the

visit to the United States, Chief Controller Jean Knox of Britain's auxiliary territorial service, may be made with Mrs. Roosevelt who, it has been announced, is expected soon.

Axis Repudiation Accepted Laws of Humanity Expected

NEW YORK, Oct. 22.—(P)—German propaganda took another ominous step today along the course which, although still obscure, might lead toward axis repudiation of the accepted laws of humanity in warfare under the pretext that the allies first violated those.

The Berlin radio gave circulation to statements attributed to the semi-official German commentary, Deutsche Diplomatique-Politische Korrespondenz, that Germany, Italy and Japan have proof that "on the enemy side formal orders were given for warfare contrary to humanity."

The statement added the threat: "The day will come, eventually when those responsible will be called to account for their actions."

This newest outburst followed

Japan's assertion that captured American airmen would be punished for infractions during bomb raids on Japanese soil, and Germans charged that the British attacked a dressing station for wounded on the North African front.

Reuters quoted a Vichy broadcast of dispatches from Stockholm as reporting that Germany and her associates had conferred on plans to denounce the Geneva convention agreements on Red Cross and war prisoners on the grounds that the 1864 convention had been violated by the United Nations.

The commentary spoke bitterly of the blockade of Germany which

it purported to me "mass murdering." It said that in Washington and London "hypocrisy" was even driven to far-fetched measures of the hunger blockade which was regarded as being contrary to humanity because no blood was being shed by such methods."

There's a lot of money tied up in your home—that investment deserves protection! Our paints will protect it—inside and out with beautiful coatings that resist the elements and preserve materials.

IPAA CONVENTION URGES OTHER WAYS THAN RATIONING

The Independent Petroleum Association of America wound up its 13th annual convention last night with a plea for government requisition of tires and a 35-mile an hour speed law instead of gasoline rationing.

William H. Morris, rubber conservation director, today had not replied to the oil men's urging that he recommend gas rationing be deferred so that the IPAA program might give the people an opportunity to demonstrate their ability to save rubber without such an imposition.

The association again asked an increase in the crude oil price and Frank Buttram, Oklahoma City operator, who was re-elected president, expressed disappointment.

Petroleum Co-ordinator Harold Ickes bypassed lightly the subject in his address telephoned to the convention from Washington.

"It is to you people in convention in Wichita that the government in Washington is looking to carry the load of oil exploration, of wildcating and of secondary recovery from stripped wells," Ickes said. "In regard to the multiple problems of the industry—shortage of material and manpower, increased labor costs, and taxation, adding: "We are fully aware of all your problems and assure you this office is doing everything in its power to help you solve them."

Ickes, often the target of sharp criticism from the industry he seeks to co-ordinate, was commended by the IPAA for his "sympathetic, energetic and understanding exercise of the function" of his office.

In addition to Buttram, these national officers were re-elected: Harold B. Bell, Ardmore, Okla., executive vice president; C. E. Buchner, Tulsa, executive manager; Russell B. Brown, Washington, general counsel, and N. T. Gilybert, Tulsa, treasurer.

Buchner, Buchanan, San Antonio, Curtis F. Bryan, Tulsa, and Paul W. Pitzen of Breckinridge, Texas, were named to the executive committee.

PACIFIC WAR

CONTINUED FROM FIRST PAGE

In the Solomons, powerful American and Japanese naval, air and land forces were reported jockeying for positions in prelude to a showdown battle for the 990-mile-long South Seas Archipelago.

Regular U. S. Army troops and marines skirmished with the enemy in the northwest area of Guadalcanal Island, but there was still no sign of a major Japanese land offensive to regain the prize Guadalcanal airfield.

The Navy said American planes continued to bomb enemy positions and ammunition dumps on the island and attacked Japanese shipping.

U. S. Navy planes scored at least one bomb hit on a Japanese cruiser off Guadalcanal on the night of Oct. 19-20, bringing it to a dead stop, and American dive bombers attacked three enemy destroyers near the same place Oct. 18, damaging one of them.

Twelve Jap Planes Downed

In addition, 12 Japanese planes were reported shot down.

In the New Guinea front, Gen. Douglas MacArthur's headquarters announced that Australian jungle fighters had cut into the Japanese flank in the Owen Stanley mountains and forced the enemy into a new retreat.

An Allied spokesman said greater numbers of troops were now engaged on both sides and indicated that the Japanese might be attempting a last stand before their base at Kokoda, at the foot of the mountains, midway across the 120-mile-wide Papua Peninsula between Port Moresby and the enemy invasion springboard at Buna.

United Nations headquarters said Allied heavy bombers struck again at the big Japanese base at Rabaul, New Guinea, setting large fires and attacked Japanese-occupied Timor Island north of Australia.

In the Aleutians, where American warplanes are carrying out a raid-a-day schedule against the last enemy base at Kiska, no fresh developments were reported.

Minor Enemy Thrust Reported Repulsed

WASHINGTON, Oct. 22.—(AP)—

A minor enemy thrust against the western flank of American positions on Guadalcanal Island has been repulsed, the Navy announced today, and there has been no material change in the military situation in the Solomon Islands.

A Navy communiqué said the attack occurred October 20.

That night an enemy bomber believed to have been on a reconnaissance mission over Guadalcanal, was shot down by anti-aircraft fire from the American batteries.

American war planes, the communiqué said, have continued to seek out and bomb enemy troop and supply concentrations on Guadalcanal, but there was no report of surface ship activity and no indication of any additional enemy landings on the island.

Allied and Japanese forces counted mounting losses in the battle of the Southwestern Pacific today as planes and ships of both sides jockeyed for positions to throw decisive blows.

In the Solomon Islands where a major naval war may be touched off at any hour, the United States lost two destroyers, the O'Brien and the Meredith. American planes retaliated by damaging an enemy cruiser and a destroyer and shooting down 12 Japanese planes.

Destruction of the two U. S. destroyers was regarded as evidence of the presence of larger American warships in the Solomons.

Westward of the Solomons, allied heavy bombers blasted at enemy ships in New Britain's harbor at Rabaul causing fires and explosions. More fires were started on the Rabaul airfield by bombs dropped by fliers under Gen. Douglas MacArthur's Australian command. Another raid inflicted serious damage on Japanese-occupied Maobisse in Timor, north of Port Darwin.

Meantime, the Japanese back-firing attempt to grab Port Moresby in New Guinea suffered another setback as Australian troops swept on the foe's flank in the Owen Stanley mountains and forced a retreat. MacArthur's headquarters reported today (Australian time).

A spokesman said greater num-

Knapp Declared Sane.
BASTROP, Oct. 22.—(AP)—The trial of Capt. George S. Knapp, 38, charged with slaying Lucy Rivers Maynard, 8, was resumed late yesterday after Knapp was declared sane by unanimous vote of a Camp Swift general court martial. Brig. Gen. Robert L. Spragins, court president, read the decision of the eight-member court martial, which said: "The court in closed session and by secret ballot, all members concurring, has ruled that the accused, at the time of the commission of the crimes with which he is charged, was not suffering from any mental disease

which would prevent him from determining right from wrong." Knapp's plea of innocent, entered by defense counsel together with a motion for a sanity examination when he was arraigned Oct. 11, remained unchanged. The court heard one witness yesterday, Capt. George C. West, staff member of the Camp Swift hospital and one of the physicians who worked 12 hours trying to keep the child alive after she was found unconscious in a pasture near Bastrop Oct. 7. Major West testified the child's

death was caused by a combination of brain injury, shock, pneumonia and cardiac injury.

Would Add New Judge.

WASHINGTON, Oct. 22.—(AP)—Rep. Sumners (D-Tex.), chairman of the House judiciary committee, yesterday introduced legislation to add a sixth judge to the United States Circuit Court of Appeals for the Fifth Circuit.

The bill (HR 7788) was identical with (W-287), introduced Tuesday by Sen. Van Nuys (D-Ind.), chairman of the Senate judiciary committee.

Charro Days On Foot.

BROWNSVILLE, Oct. 22.—(AP)—Brownsville will hold its annual Charro days Fiesta in 1943 but the picturesque border carnival will be strictly a foot affair.

Charro days directors have turned over to the war effort all equipment containing steel, wire and rubber.

Brownsville men still will grow beards, however, and townspople will don colorful Mexican costumes for the traditional pre-lenten event March 4.

Sun Want Ads Bring Results.

Oil Concerns Merge.

HOUSTON, Oct. 22.—(AP)—Merger of the Salt Dome Oil Corporation and the Gulfboard Oil Corporation will be submitted for approval to the stockholders of both firms at special called meetings Dec. 15.

An agreement to merge the companies, dated Oct. 16, has been authorized by their respective boards of directors.

the next ten days, Dr. A. B. Cox, University of Texas cotton expert, reported today.

There will be a general need for 50,000 fewer pickers in that period than there was during the Oct. 1-18 period, he said, ginning his estimate on county ginning totals. Bulk of the cotton now ready for picking is in the high plains, the Abilene Haskell plains, and the northern black prairie.

WILL CLEMENTS IS BURIED IN CATHOLIC CEMETERY THURSDAY

Funeral services for Will Clements, aged 76 years, Seagoville Route 1, who died in Parkland hospital, Dallas, early Wednesday morning, were held in Dallas on Thursday with burial in Catholic cemetery here at 3:30 o'clock. He had been ill two weeks. A short funeral service was held at the cemetery here with the Rev. Msgr. V. Graffeo of the Church of the Immaculate Conception conducting the rites.

Reared in the Mildred community, Clements moved to West Texas in 1917 and later resided in the Embosse and Mabank communities prior to going to Seagoville several years ago.

Surviving are his wife of Seagoville, three children, C. B. McKeithen, Constance; Mrs. Dick Farrell, San Antonio; Bernie, W. A. and Ray Clement, and Mrs. Worth Yankees, all of Dallas; several grandchildren, two brothers and two sisters.

Corley Funeral Home had charge of local arrangements.

Achievement Tour UDC Clubs Is Ended

The fifth and last day of the Navarro County annual achievement tour of the Home Demonstration Clubs began when a group of women from seven clubs met at Union High in the home of Mrs. Bertha Pace. They were led by Mrs. Vera Sned, county agent.

After an exhibition of Mrs. Pace's bedroom demonstration, the group went to the home of Mrs. Sid Loveless, food supply home demonstrator, who has recently built a new home and improved it by building concealed dish, linen and cleaning equipment closets, an underground pantry and good store room.

The women journeyed to Stansell to the home of Mrs. Grover Crain, Stansell's bedroom demonstrator, who had remodeled an unused bedroom into an attractive room for her six-year-old daughter. The next visit was to the home of Mrs. J. Jones and Mrs. Robert Jones for a display of canned food, quilt-tops, blocks and other needlework. The next stop was the home of Mrs. Frank Shaw where her twin daughters, Virginia, Del and Cleo, were shown how to make quilted, padded garments. The group had dinner at Mrs. Crain's.

View Girl's Bedroom. Dawson Betty Rae Willis' bedroom demonstration was enjoyed by the group. Betty Rae, Headquarters 4-H Club demonstrator, told how she purchased her own bedroom suite and made covers for the springs, pillows and mattress.

From Dawson the women went to Spring Hill to see the new three-room house of Mrs. J. E. Tretter and Mrs. E. F. Hubbard, made from a small negro house and an old garage. The next home visited was that of Mrs. Virgil Matthews who showed how she had changed an old washstand into a modern dressing table making the skirt from unbleached muslin in candlewick design to match the bedspread and pillow. The curtains in the bedroom were made of plain canvas trimmed with ball fringe.

Songs were sung by the women and girls with Mrs. Edward Hale playing the piano. Mrs. Matthews gave each one present, some spider lily seed to be planted in November. The group sang "Blest Be The Tie" and were dismissed with an appropriate Thanksgiving prayer led by Mrs. J. A. Bills of Spring Hill.

Those Registering. Those registering for the occasion were: Mrs. C. C. Turner, Pauline Dickson, Chilton, Mrs. Freda Hins, Eddie Hale, Mrs. Dawson, Mrs. Skinner of Pickett; Mrs. W. A. Dohms, White's Chapel; Mrs. F. Hanmett, Virgil Matthews, E. F. Hubbard, Hughie Shaw, U. E. Putman, J. E. Tretter and J. A. Bills, Spring Hill; Mrs. Sally Powell, Jim Roberts, Roy Reed and son, Hubbard; Mrs. Bertha Pace, Sid Loveless and Dee Haley, Union High; Mrs. Frank Shaw, M. F. Nehring, C. C. Gannett, J. Jones, Robert Jones, P. C. Vick, C. A. W. Cox, A. H. Brock, Edward Talbot, G. Moran, Bruce Gauntt and baby, Raye, Jean, Virginia and Franklin Shaw, Barbara Sire Vickery, Mary Lou and Jo Carolyn Cox, Robbie Talbot, Nedra Fae Crain, Vera Sned, Athene Taylor and Mrs. Crain.

Japs, German and Italian Captured In Mexican State

MEXICO CITY, Oct. 22.—(AP)—Government agents investigating reports of a secret Axis airfield in Chihuahua state captured six Japanese, a German and an Italian, the interior ministry reported today. It did not say whether the airfield had been found.

However, several days ago, after the aliens had been brought here for questioning, the ministry said and no official information about the airfield.

The ministry, in charge of counter-espionage work, said the aliens had fled to the mountains in fear of being sent to a concentration camp.

Frost Polar Bears Meet Trinidad Tigers

Frost Polar Bears entertain the Trinidad Tigers at Frost Friday afternoon in a non-conference game. These traditional rivals formerly were in the same bracket of the District 21-11 Interscholastic League. Frost has been transferred to the A bracket.

Trinidad is regarded as one of the strongest combinations in the entire district this year. Frost is the defending district champion and is reported to have prevented an opponent scoring on the Polar Bear field the past two years. A large attendance is expected.

Houston Banker Dies.

HOUSTON, Oct. 22.—(AP)—Elvis Clyde Roberts, 50, vice-president of the Houston National Bank and prominent member of the banking profession, died last night in a hospital. He had been in ill health for several years.

A native of Nebraska, Roberts had lived in Houston for the past 20 years.

Funeral arrangements will be announced later.

Loye Leath et ux to W. J. Price 77 1/2 acres Evans Lowery survey, \$250 and other considerations.

Several of Massive Gates of Mansfield Dam Are Opened

Marriage License.

J. L. Clewels and Mrs. M. Brown George Burleson and Lillie Johnson.

Sheriff's Office.

The mystery of the stolen automobile reported to city police during the week end was solved Tuesday when Sheriff Cap Curington revealed that he and Deputy Sheriff Sam T. Curry Sunday night took possession of the car and drove it to the county jail after it had been reported to have been parked near Chambers Creek for several days. The car was not the property of Joe B. Fortson, the man reported to have belonged to Tom Rector. The car was returned to the owner Monday.

One was transferred from the city police on a burglary complaint and one was arrested on an insanity charge, three for drunkenness and three on capsashes. Several complaints were filed in Justice court and Embosse city court, it was reported Tuesday, again.

Embosse residents in connection with disturbances last week in the community.

One was arrested for careless driving and another for abusive language. Sheriff Cap Curington reported Tuesday morning.

One was placed in jail on a charge of drunkenness. One was taken into custody on an insanity charge.

Justice Court.

Two were fined on charges of operating trucks without commercial licenses by Judge Haydon Paschall. Two charges of aggravated assault, one for burglary and a statutory complaint were filed Monday before Judge Paschall, to be transcripted to the county and district courts.

Judge Paschall, representing the state, presided Monday in Fort Worth attending a meeting of legislators in discussing questions and problems calculated to be brought before the law-making body early next year. He reported an excellent meeting.

One was fined on a speeding complaint by Judge Haydon Paschall.

One was fined on a reckless driving charge by Judge Haydon Paschall.

They Did Well.

BELVUE, Kas., Oct. 22.—(AP)—Twelve members of the Ladies Aid Society quit quilting to husk corn on Elmer Henry's farm—at 10 cents a bushel.

They earned \$20 and a farm dinner.

Matron's Shirtfrock

ANGEL OF MERCY AMID TOTAL WAR

By FRANK BRETT (Wide World Features)

GENEVA.—The spreading battle lines of global war have increased the already tremendous burden of the International Red Cross but the Red Cross isn't one to complain—it just goes ahead and does its job.

And the job is seemingly without end. It must act as a completely neutral but intensely interested party in dealing with refugee ships, refugee problems, inspection of prison camps, prisoners' mail and a dozen other things that make up the backwash of war's miseries. All on shoestring finances and a limited personnel.

To illustrate the mushrooming activity of the present war as compared with World War I, the Bureau of War prisoners in 1914-1918 received an average of three million messages. In this conflict it already has received almost 17,000,000 messages, or an additional 17,000,000 parcels of food, medicine, clothing and other items, excluding books.

Volunteer Workers. More than 500 workers are engaged in the Central Agency in Switzerland, most of them giving their services without pay. The vast premises which house the varied functions of the International Red Cross were made available by the Swiss government, rent free.

Chief task is the prisoners bureau, which centralizes information of prisoners from an official list sent to Geneva by Red Cross bureaus in belligerent countries.

One hundred persons work all day at tables which contain files now holding 12,000,000 cards—each with a case history—and classify 31,000 cards daily on requests for information for prisoners. An average of 27,000 letters are received daily and an average of 30,000 communications are sent daily by the Red Cross. Correspondence is largely paper-free.

Delegates of the International Red Cross committee have made more than 500 visits to prison camps and 150 civilian internment camps. Insofar as possible delegates are sent from Geneva. In the far east and other places where it is not feasible to send Swiss delegates, the Swiss citizens living there serve.

Eight merchant ships which the Red Cross bureaus have made available to the Red Cross are now flying the Red Cross flag on mercy voyages have been bought by belligerents chiefly Great Britain and then chartered to the Red Cross.

Books Distributed. Intellectual assistance for prisoners is a rapidly expanding branch of service. More than a million books have been sent to prisoners, along with microscopes and other equipment for medical and scientific students where work was interrupted by war.

The cost of maintaining the staff of delegates only about 800 of many thousands are paid—now about 400,000 Swiss francs annually, or one million dollars annually.

One third of this amount is met by foreign governments' Red Cross societies and belligerents; the remaining two thirds is raised by gifts from the Swiss government, Swiss industry and Swiss people.

About a million dollars annually is saved through free rent and voluntary services.

Since America's entrance into the war, a list of American prisoners has already been received from Japan through International Red Cross confirmations. No detailed report has reached Geneva on Japanese treatment, but Swiss delegates in Tokyo have sent many cables telling of prisoners' new regulations were prepared.

Something Like Irony.

DENVER, Oct. 22.—(AP)—Frances Sargent was bicycling when a car collided with her leg.

Sargent, 21, was riding when the dog, but grazed Sargent's ankle.

In police court Sargent was convicted of cruelty to animals and was given a suspended fine of \$100.

He also was stripped of his commission as voluntary officer for the state child and animal protection society.

Release of the torrents of water

was ordered by the lower Colorado River Authority to hold Lake Travis to the maximum operating level fixed by agreement between the authority and the U. S. Bureau of Reclamation, which built the dam primarily as flood control unit.

Discharge of 52,000,000 gallons of water daily from Lake Travis, together with the normal discharge from Lake Austin, brought the river at Austin to seven feet above normal. Flood stage is 21 feet.

Lower Colorado Authority engineers estimated that the recent heavy rains on the river's watershed would have put the stream to flood stage here, had it not been for storage space upriver.

Lower Colorado Authority engineers estimated that the recent heavy rains on the river's watershed would have put the stream to flood stage here, had it not been for storage space upriver.

INTERNATIONAL

CONTINUED FROM FIRST PAGE
Germans have thrown perhaps 60,000 troops and hundreds of tanks and planes into the attack.

5. A stone wall defense elsewhere around the fire-blackened metropolis.

With his 1942 timetable already disrupted, Hitler now faces the swift approach of winter and the prospect of either withdrawing his siege armies or seeing them huddle in dugouts and trenches in the ruined countryside.

Dispatches to Izvestia reported that the steppes across the Don-Volga corridor had been transformed into muddy bogs, with early October's unseasonal warmth giving way suddenly to rain, a cold wave and the first snow of the season.

Enemy Slowing Down.

Results of the last seven days of battle in the district of Stalingrad show that the enemy is somewhat reducing the tempo of the general offensive, Red Star said.

"More and more German units in the city district are expiring."

Front-line dispatches declared the Russians had beaten off all attacks around a north side factory and a workers' settlement, then seized the initiative to drive the Germans into retreat.

"In the region of one of the factories, our troops occupied a number of buildings, annihilated 150 Hitlerites and destroyed two mortar batteries and five machine-gun posts," the Soviet command reported.

Two companies of German infantry and nine tanks were reported wiped out in fighting elsewhere about the city.

Nazi Losses in Caucasus.

Red army headquarters also reported heavy German losses in the Caucasus with 500 Nazis annihilated in the Mozdok sector, gateway to the Grozny fields, and two companies destroyed in fighting around the Black Sea below Novorossiysk.

Deep snow blanketed the Caucasus mountains, bogging down German drives in the two main sectors.

Other developments:

Western Air War — A Vichy (French) broadcast reported that U. S. flying fortresses yesterday inflicted havoc on the German U-boat nest at Lorient, France, while other allied warplanes pounded a Nazi airfield near Cherbourg and carried out hedge-hopping attacks in western Germany.

Speedy American-built Mustang fighters, piloted by RAF fliers, strafed barges in the Dortmund-Ems Canal, machine-gunned defenses at Lathen in Hannover Province, and set fire to a 500-ton ship in the Zuider Zee.

RAF Mosquito bombers, operating singly, were credited with attacking Nazi targets in Holland and western Germany.

German raiders bombed and machine-gunned a British southeast coast town at dawn today, following sporadic night attacks, and inflicted a number of casualties and extensive property damage.

Egyptian Campaign.

Egyptian Campaign — Italian headquarters asserted that 55 British planes were shot down against a loss of 11 axis planes in a violent air battle over the Egyptian desert on Tuesday, involving 200 planes on each side.

The hand front at El Alamein, 80 miles west of Alexandria, remained quiet.

Dispatches from Cairo said U. S. army planes, in the first all-American bombing foray over the African desert, kept axis transport lines and air bases under steady pressure yesterday with large-scale bombing and fighter attacks.

Dakar. French Admiral Jean Darlan, chief of all Vichy armed forces, arrived at Algiers today en route to Dakar in the wake of axis propaganda assertions that a big allied offensive was preparing to strike at the key French West African base.

The Vichy regime, headed by pro-Nazi Premier Pierre Laval, has proclaimed its intention to defend Dakar against any attack.

Reports reaching Switzerland said that Vichy was making every effort to appear calm over the situation, but that "the eyes of the whole of France are directed upon West Africa."

King Christian Worse.

LODONG, Oct. 22. (UPI)—A Copenhagen broadcast said King Christian X of Denmark, injured in a fall from a horse, lapsed occasionally into unconsciousness today. It described his condition as worse.

Goechhels Admits Damage.

BERLIN, Oct. 22. (UPI)—Propaganda Minister Paul Goechhels acknowledged damage from Allied attacks

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY

By VERONICA DENGEL

THE KEY TO BUSINESS SUCCESS.

A little imagination, some courage, and a capacity for doing a little more than is expected of you, is the keynote for success in business. We have often discussed the importance of exercising your body, and what better way to exercise your mind than to forge ahead in your business world. The job Veronica Dengel takes is a job which she believes that it will do until she marries, is making a grave mistake. One never knows when it will be necessary to return to the business world, and the experiences you have had may be of the greatest help in securing a position for you years after you left office. Nothing is worth while doing at all unless you give it the best you have in you. You are in your employer's place. If you were footing the expenses of that business, in good times or bad, wouldn't you expect your employer to work intelligently and

in the west in an address yesterday at Gdynia, but declared "we are winning decisive victories in the east," a Transoceanic dispatch said today.

The broadcast, as recorded in New York, mentioned neither Stalingrad nor the stiffened Russian resistance in the Caucasus.

"The situation," said Goebbel's, making his first speech at the conquered Polish port, declared: "We shall continue the war in the east until the Bolshevik power will have been finally broken."

He reiterated a charge that the British had begun barbaric warfare and air attacks in open towns in stating that "we have had wounds inflicted upon us in the west." He said Germany maintained the initiative and stood on secure military ground."

THE WAR TODAY

CONTINUED FROM FIRST PAGE

The prediction that Hitler would be rendered vulnerable to a death threat if he arrived in his present state by the end of the year was based on two thoughts:

1. Lacking fresh resources and strategical bases which would go with them, he would be unable to repair the colossal damage suffered in Russia.

2. Meanwhile, the United States and Britain could have been pinning up strength and would be able to stand on him in his weakness.

Well, the first condition seems fulfilled. Upon fulfillment of the second condition depends whether we may be able to beat the Nazi anti-Christ by, say, next fall or whether the war will drag on indefinitely. Everything depends on the speed with which we act and the manner in which we attack.

I have tried to make it clear in my last two articles that a concentrated Anglo-American air attack on Western Europe and Germany would turn the trick if undertaken at once. That is the consensus of many military observers.

We have a double mission to perform. We must hit Hitler immediately while he is still gorged from exertions in Russia. We must prepare the way for that second front which will give the gallant Russians the relief they need.

Must Come Through Air. Only by a devastating aerial preparation can the ground be cleared for invasion. To attempt to land an army without this would be sheer madness. And this preparation will kill two birds with one stone for it not only would render invasion feasible, but at the same time render Hitler terribly vulnerable by depriving him of his main war industries and means of transport.

I have pointed out that there are less than 200 targets for our combined air forces to destroy in order to force the all-highest close to impurity. Actually, the destruction of 40 of the most vital would knock his hopes into a cocked hat.

The thing needed to make this aerial assault possible is quick reinforcement of both British and American bomber fleets in Britain. By trebling the present forces at once the trick could be turned fairly quickly.

Concrete Examples.

The RAF and our own grand airmen have been given concrete examples recently of how virtually whole military targets can be wiped out in a single raid. There is no unproven theory involved.

Our Colognes and Rostocks and Luebecks and a host of other places clearly demonstrate the possibility.

The beauty of this air weapon is that it can be used with a comparatively few men. You don't need a great army for this spade work.

And believe me, if the Allies try to land half a million boys on the shores of France without ample preparation you are going to bring the world to a standstill.

The RAF and Hitler's industrial resources and transport supplied by bombers invasion would lose the most terrible of its dangers.

Works Efficiently.

The bomber command works so quickly and with so little display that we are inclined to lose sight of the efficiency of their arm.

For example, the RAF arm, a lightning bolt knocks out the latest Renault works in Paris, destroying more tanks than have been accounted for in all the Libyan fighting and depriving Hitler of great manufacturing power.

We applaud heartily but briefly and then forget. But if a hundred thousand commandos bathe their way ashore from the channel, fought their way to Paris and did the same job with the loss of only their number, the world would go wild with admiration.

If an army marched against Cologne, a single blow would bring the world to a standstill.

The RAF and Hitler's industrial resources and transport supplied by bombers invasion would lose the most terrible of its dangers.

RUSSIAN

CONTINUED FROM FIRST PAGE

the factory yards, and, from the north.

Pravda said the Germans still had numerical superiority, still held many more tanks as many men as the Russians in action. The Russians were said to be adopting the classical round defense, individual points where the enemy hit hardest.

Deep snow fell in the mountains of the Caucasus, where the Germans have bogged down in the two main sectors, the district of Mordovia and southeast of Novorossiysk.

Continue Attacks. Soviet dispatches said the Germans continued to press numerous attacks in the foothills without effect.

In the mountains above them small groups of Nazi Alpine troops tried to penetrate Russian positions over the snowdrifts, but they were rapidly wiped out, or dispersed by Caucasus troops.

Pravda, the Communists' party newspaper, calculated that the Germans were employing three divisions of infantry in the narrow and mountainous sector near the Black Sea coast. Combat flared on heavily wooded summits and in deep gorges.

Ten days of action were estimated to have cost the invaders 4,000 men without a territorial gain.

Without a single blow, the result of the action, Pravda said the Germans broke through temporarily in one sector southeast of Novorossiysk, but the Russians drove them back and established themselves in the outskirts of a Nazi-occupied community.

McClung To Resume Duties. John Edmund McClung left Corsicana Thursday to resume his duties in the diplomatic service of the United States. McClung will go to Algiers in North Africa for foreign service.

He has been visiting his parents, Dr. and Mrs. J. E. McClung for the past two months, after his return from posts in Moscow and China. McClung returned to this country on the Grisholm.

ARMY AND NAVY IS WORKING IN HARMONY IN SOLOMON ISLANDS

MACARTHUR AND GHORMLEY KNOW WHERE THEIR COMMANDS ARE HE SAYS

WASHINGTON, Oct. 22.—(P)—Secretary of War Stimson reported today that in the fight for the Solomons Vice Admiral Robert L. Ghormley and General Douglas MacArthur were "working in the closest possible cooperation" along the territorial border line where their two commands joined.

The Secretary told his press conference that the responsibilities of command in the Pacific were "well fixed and thoroughly understood."

He outlined the command arrangement in response to a suggestion that confusion existed as to unity of command between MacArthur and Ghormley.

"Although the whole Pacific area had had to be divided into theaters of operation, there should be no occasion for any real confusion," Stimson replied.

The bulk of the Pacific area, he said was under Admiral Chester W. Nimitz, Pacific fleet commander-in-chief, including Army installations and troops in the Aleutians, Hawaii, Fiji Islands, the Solomons, New Hebrides, New Caledonia and New Zealand. The southern part of this command is under direct orders of Ghormley.

Excluded from Nimitz' command, Stimson noted, were the west coast of the United States and the Alaskan mainland, both under Lieutenant General John L. DeWitt, with Major General Simon B. Buckner in immediate control in Alaska.

Also separate is General MacArthur's command of all United Nations in Australia, New Guinea and Islands to the north of Australia.

In the Solomons fight, Stimson said that MacArthur was giving "extremely valuable support" to the fight of naval, air and ground forces under Admiral Ghormley, with the bombers which have been pounding the Japanese.

Three Injured in Blast in Ordnance Plant at Texarkana

TEXARKANA, Oct. 22.—(P)—An explosion at the Lone Star ordnance plant yesterday injured three persons, one critically.

The injured were listed by Capt. James R. Fraser, public relations officer, as Judson Rupert Shipp, 36, shift foreman and former Dallas resident, considered critically hurt; Harold Samuel May, 21, truck driver of Simms, Tex., and Winfield Ray Livingston, laboratory operator.

Cause of the blast, which occurred in a storage building, had not been determined, Capt. Fraser said.

Wanted a Change.

KANSAS CITY, Oct. 22.—(P)—A crusty-voiced man called Police Chief Harold Anderson's office today and said he wanted to be a volunteer patrolman election day.

And why did he wish to serve?

"...I'm damned tired of doing housework all the time."

LOUISIANA SENATOR STILL FIGHTING TO HAVE COTTON USED

WASHINGTON, Oct. 22.—(P)—Senator Ellender (D-La.) said today he would insist on speedy tests of cotton cord in combat tires so that this could be used by the army instead of rayon, if cotton proved practical.

As chairman of a subcommittee investigating an order by Rubber Director William M. Jeffers that facilities be provided for the manufacture of 50,000,000 pounds of tire rayon annually, Ellender said he did not want to impede that war program.

But he did want to see the senator told reporters, a "switch back to cotton" if the tests showed high density low gauge cord of that material was "just as good." And he said he would try to get the tests completed sooner than the three to six months given in estimates made by his subcommittee.

Lieut. Gen. Brothom Somervell, chief of the services of supply, had informed Jeffers that the army found high tenacity rayon necessary in airplane tires because of its lightness and strength and in thick combat tires to withstand the high temperatures they generate.

Although WPA, through its division of training and re-employment project, has placed 45,000 workers into private employment in Texas during the past twelve months, he declared, there still remain on the federal rolls many workers who can be trained for various types of skilled and semi-skilled work.

Dr. Wright specifically urged that the training program be utilized to its fullest extent to fit older workers and women for defense jobs. Many such workers who a few years ago were not considered employable in private industry, he said, now have the opportunity of securing work in war industries.

WPA Workers to Be Trained for Jobs In War Industries

SAN ANTONIO, Oct. 22.—(P)—WPA officials throughout Texas were directed today by State Administrator H. P. Drought to step up training of remaining project workers to fit them for speedy transfer to war industries.

Although WPA, through its division of training and re-employment project, has placed 45,000 workers into private employment in Texas during the past twelve months, he declared, there still remain on the federal rolls many workers who can be trained for various types of skilled and semi-skilled work.

Dr. Wright specifically urged that the training program be utilized to its fullest extent to fit older workers and women for defense jobs. Many such workers who a few years ago were not considered employable in private industry, he said, now have the opportunity of securing work in war industries.

Martha Kessinger Enlists in WAACS

DALLAS, Oct. 21.—(Spl.)—Martha Kessinger, 604 East Ninth, Corsicana, Texas, daughter of Mrs. Mattie Kessinger, has been enrolled as a member of the Women's Army Auxiliary Corps. She returned to Corsicana after being placed in the WAAC Reserves. She will later proceed to Fort Des Moines to complete her training.

Seek Reduce State Spending.

FORT WORTH, Oct. 22.—(P)—Reports from the three cotton yards here show a total of approximately 8000 bales of the 1942 cotton crop weighed to date. The figures represent an increase of 2,330 bales over those of last year on this date.

Jacqueline Cochran Reports.

FORT WORTH, Oct. 22.—(P)—Jacqueline Cochran, famed woman flier, has reported to the air force flying training command here and today announced she will be in charge of training pilots.

He also said he would agree to any reduction made by the legislature which will not handicap the efficiency of the office.

Wanted a Change.

KANSAS CITY, Oct. 22.—(P)—A crusty-voiced man called Police Chief Harold Anderson's office today and said he wanted to be a volunteer patrolman election day.

And why did he wish to serve?

"...I'm damned tired of doing housework all the time."

TWO LONG-TERM CONVICTS CAPTURED MEXIA LAST NIGHT

MEXIA, Oct. 22.—(P)—Two long-term convicts were captured here last night, leaving at large only two of the eight who fled the Eastham prison farm near Huntsville Sunday.

The fugitives were being hunted by Mexican officers and state patrolmen when they blew out just at dark forced them to abandon the automobile they stole and the negro they abducted at Huntsville after their escape.

The convicts, Cora Hudson, 29,

and Walton Van Jennings, 30, then struck out through brush land to a highway and were walking toward Mexia when policemen recognized them, tired, hungry and unarmed.

The capture was made by Mexia Patrolman Jess Bozeman and Highway Patrolmen Frank Kirkell and A. C. Crockett of Corsicana. Huntsville officers who at the time of the capture were on their way here with bloodhounds to aid in the search, joined the pair to the prison early today.

Hudson is serving 70 years for armed robbery from Leon, Rusk, Burleson and Smith counties and Jennings a life sentence from Tarrant county for robbery with firearms.

Remaining at large were Horace H. Gaddy and William V. Cum-

ings. The other four were captured soon after their escape.

Two Convicts Taken.

SAN ANGELO, Oct. 22.—(P)—Cross, 22, and Alton Walcott, identified as convicts by state patrolmen who arrested them near Sanatorium last night, were held here today awaiting arrival of officers from Meridian, Texas.

State Patrolmen Charles Rice and Glenn Warner of San Angelo and the pair were just at Mexican Shallow. They had pitched camp in a small park near the North Concho and were taken into custody without resistance.

Patrolman Rice said Cross and Walcott had been removed to Meridian on bench warrants charging theft from the state prison farm system at Huntsville. Rice said Walcott was from the Wynne-

farm but that he did not know whether Cross had been in the main prison or one of its farms.

Kilgore Man Killed.

KILGORE, Oct. 22.—(P)—Funeral services were held today with interment at Ardmore, Okla., for Fred Frasher, 31, of Kilgore, killed Tuesday night when he fell under the wheels of a truck in which he was riding to a birthday outing. He was survived by his widow, a daughter, and his parents.

Something to Remember Him By.

SACKETS HARBOR, N.Y., Oct. 22.—(P)—Mirian Nash, selective service inductee, gave his mother something to remember him by. He fondly embraced her just before he was survived by his train departed, squeezed and cracked two ribs.

Parachutists in Valley.

SAN ANTONIO, Oct. 22.—(P)—

Parachutists attached to the second division, now undergoing airborne training, will drop in the Rio Grande Valley in the vicinity of Del Rio, Brackettville and Eagle Pass, this afternoon. Third Army headquarters announced here today.

Small Craft Warnings.

NEW ORLEANS, Oct. 22.—(P)—The weather bureau today issued the following marine forecast: "Apalachicola to Brownsville: Small craft warnings have been ordered 9:30 a.m., CST, Port Eads and Burwood, La., to Brownsville Texas. Fresh to strong winds up to 25 to 30 miles per hour this afternoon and tonight."
